

## **Chief Mineral Resource Geologist**

### **Role**

We are currently seeking an experienced Chief Mineral Resource Geologist to become a valuable member of our on-site exploration team as it continues to discover new extensions and increasing the company's mineral resource base at its West African operation and projects.

### **Responsibilities**

The principal objectives of the role will be to;

- Manage the mineral resources and work alongside the exploration team
- Generation of Mineral Resource Models for existing and new deposits
- Review and update grade estimations and resource models yearly or as required by the company
- Reporting of resources and end of year reconciliations (carry out model depletions)
- Assist mine geology with optimisation of grade estimation parameters & monthly reconciliations
- Provide resource and reserve technical assistance to mining engineering and mine geology
- Assist with ongoing underground or other feasibility work
- Manage the assay and sample QAQC process for exploration drillhole and soils data
- Assist with business development and evaluation of other projects

### **Person**

The person we are looking for must have the following skill set;

- +15 years resource modelling experience with at least 3-5 years in a similar role
- Post graduate degree or diploma in geostatistic's
- Previous West African experience would be advantageous
- Prior experience of modelling Birimian gold deposits
- Good communicator, with preferably some French speaking skills
- Ability to work in a small dynamic team environment

### **Conditions & Expectations**

The role will be

- Based in Mali, West Africa at mine site
- Roster : 6 weeks on, 3 weeks off
- Reporting to the Exploration Manager

### **The Company**

You will be working within a small, ambitious and energetic gold focused company that has multi-million ounces in resources across West Africa. The role will play a key part in the future success of the company and as such a highly motivated person is being sort to complement our diverse and driven team.

Applications to be submitted by 22<sup>nd</sup> June 2018, only successful candidates will be contacted.
